Contents:

1	Introduction	1
2	Class Structure	3
3	Indices and tables	5

CHAPTER 1

Introduction

CHAPTER 2

Class Structure

The classes used below are used to create a TX-TL mixture and the components and mechanisms that define the species and reactions that are contained in that mixture.

<code>txtl.Mixture</code>
<code>txtl.Component</code>
<code>txtl.Mechanism</code>
<code>txtl.Parameter</code>

CHAPTER 3

Indices and tables

- `genindex`
- `modindex`
- `search`
